FY /5 KIQ STRATEGY REPORT

KIQ 24: *What are Soviet and Warsaw Pact intentions and actions with respect to adherence to arms limitations agreements with the United States?*

I. COMMUNITY COLLECTION AND PRODUCTION STRATEGY

A. Collection and production assets will be directed toward
25X1X1 Soviet weapon system [REDACTED]

programs relevant to the ABM Treaty and the Interim Agreement (henceforth, the agreements), Soviet actions that impede verification, Soviet actions with respect to agreed dismantling and destruction procedures, and statements and actions of Soviet leaders that might bear on their intentions.

B. Chances of timely collection of information on Soviet adherence to the agreements will be enhanced by:

C.

- D. Communications among technical collectors, human collectors, and analysts of Soviet military and political matters will be improved.
- E. We will regularly review collection and production priorities, and reexamine our assessment of Soviet activities bearing on adherence to the agreements.
- F. The MBFR Monitoring Study Group will review the intelligence information now being collected and assess our capabilities to monitor Soviet adherence to an MBFR agreement.

II. AGENCIES WORKING ON THIS KIQ

- A. The USIB Steering Group on Monitoring Strategic Arms Limitations will direct the production of the "SALT Monitoring Report" about three times per year. This report -- prepared by the SALT Monitoring Working Group, assisted by observers from collection and processing agencies -- will summarize Soviet activity during each four-month period with respect to the provisions of the ABM Treaty and the Interim Agreement.
- B. Intelligence production components of CIA, DIA, and State will designate individuals with political, military and

No Foreign Dissem

- given the current allocation of intelligence collection and potential assets
- assuming the current level of resource allocation and analysis but optimizing for MBFR monitoring capability
- by adding new collection and analytic capability as appropriate to indicate the levels necessary for monitoring MBFR agreements.
